

FEES FOR SERVICES

We accept most commercial insurances, Medicaid, and managed care plans; we also offer discounts to families without health insurance based on income and family size. Staff is available to assist families without insurance to determine eligibility for affordable insurance options through Medicaid or the federal health exchange. For more information or to request assistance, parents should call 513-483-3071 to speak with a resource advocate. If a family is ineligible for insurance, they may apply for their child to receive services at a discount. For more information about discounted services, or to apply, parents should call The HealthCare Connection Finance Department at 513-483-3073.

Our Mission:

To provide quality, integrated school health services to improve health status, optimize academic achievement, and enhance the well-being of Heritage Hill Elementary school students.

Our Vision:

Heritage Hill Elementary School students are in school, healthy, and ready to learn.

Our Values

- *Quality
- *Compassion
- *Respect
- *Partnership
- *Student-centered services
- *Community engagement
- *Parental involvement

What Is the Heritage Hill Viking School-Based Health Center (HH-VSBHC)

The HH-VSBHC is like a doctor's office within the school providing a great benefit to students. For students without a primary healthcare provider, HH-VSBHC staff may become that provider. Research shows that school-based health centers can help a student manage his/her illness(es) at school and, therefore, decrease absenteeism from school and parents' time away from work as well as fewer hospitalizations and trips to the emergency room. If a student is sick/ill, they have the opportunity to be treated without delay. A student that is healthy and shows up to class is better equipped for academic success. The HH-VSBHC is not

intended to replace the school nurse or a student's primary physician—but can become an important member of the student's health care team.

Who We Serve

All students who are registered at Heritage Hill Elementary school are eligible to receive services provided there is a consent form signed by a parent/legal guardian on file. Parents are not required to attend visits with their child.

No Treatment Without Parent or Guardian Consent

Our Staff

HH-VSBHC staff includes a Certified Nurse Practitioner (CNP), office assistant, and a board certified collaborating physician.
